

Genliv

For Healthy Liver

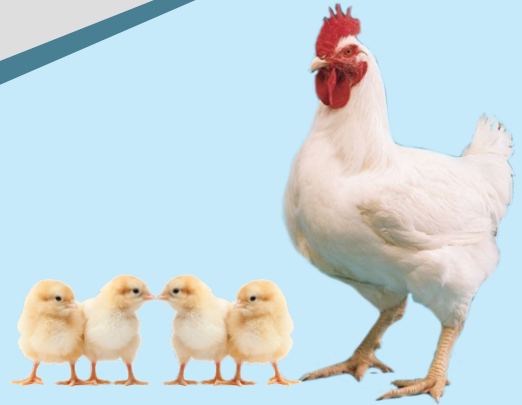

Liver – an important organ for performance

In ancient Chinese medicine, it's said that “the physician who knows how to harmonize the liver knows how to treat the hundred diseases.” The liver, one of the largest and hardest-working organs in the body, is believed to be of the “wood element” and is crucial for the transformation of food into energy

Genliv

For Healthy Liver

When the liver doesn't perform properly, discomfort within the digestive system results, which can then spread harm to other parts of the body. Without the liver, it's impossible to have a properly working metabolism, healthy circulation, balanced hormones, clean blood and strong digestion.

It's the liver that recognizes toxic substances and converts them into harmless material that is thrown out of the body.

Contents

- Lipotropic agents
- Liver stimulants
- Buffers
- Enzymes
- Vitamins
- Emulsifiers
- Herbal extracts

Benefits :

- Protects liver from damage
- Stimulates feed intake
- Restores liver function
- Ensure better health condition
